Diabetes & Kidney Academy

Course Aim

Diabetes and Chronic Kidney Disease frequently occur together in our patient population and this makes the management of these patients more challenging and complex. This two day Academy is for all health care professionals who manage patients with diabetes and or CKD. It aims to use the current evidence base to improve the care of patients with both diabetes and CKD across care settings. The interactive sessions will examine existing practice and facilitate a better understanding of the management of diabetes and CKD.

Course Modules Include:

- Glycaemic control in patients with CKD
- Transplantation for patients with Diabetes and CKD
- Understanding Cardiovascular Risk in Diabetes and CKD
- Controlling progression of Diabetic nephropathy
- Diabetic foot disease on the dialysis unit
- Obesity, Diabetes and CKD
- Managing Diabetes on the dialysis unit

Course Organisers:

Andrew Frankel
Jo Reed

Anne Donhorst
Anastasia Lawrence

Steven Bain
Per-Henrik Groop

The Academy will be accredited with
Medical CPD
Nursing NMC CATS
