Oncology

Dr Nicholas Plowman, London

Neurolophthalmology

Dr Gordon Plant

Neurosurgery

Dr John Jane Jr, Charlottesville
Prof John Pickard, Cambridge
Prof Nic De Tribolet, Geneva
Mr Kanna Gnanalingham, Manchester

Welcome to the 9th in the series of Pituitary Clinicopathological meetings. This is a case- based discussion forum also highlighting hot topics in pituitary disease. The multidisciplinary approach combines surgical, endocrinology and oncology treatment approaches.

Call for Cases

We aim to present about 20 cases of various pituitary disorders. The type of case that works well in his format is one that poses diagnostic problems, where several secondary treatments could be considered or where there is a small case series to learn from. We have limited space for rarities which tend not to lend themselves for discussion.

Please send a brief review of a case that you would like to present to
Dr Mark Vanderpump mark.vanderpump@royalfree.nhs.uk or
Dr Stephanie Baldeweg stephanie.baldeweg@uclh.nhs.uk

If your case is accepted, there will be a reduction in your registration fee.
Cost £65

Organisers:

Dr James Ahlquist
Dr Stephanie Baldeweg
Dr Gerard Conway
Ms Joan Grieve
Mr Michael Powell

Registration:

Before 1st March 2007	£110.00
After 1st March 2007	£120.00
Delegates presenting a case	£65.00
